**Personal:**

A relative newcomer to coaching soccer, but I have been coaching or instructing youth since 1974. I have been a certified swimming instructor, coached high school football, was a ski instructor for the Mt. Ashland Learn to Ski program, and coached both youth and adults in basketball. I have played soccer recreationally since the early 1980’s...and learned the game from my father who played semi-professionally in Europe. (1940’s)

A voracious student of the game, and a stout believer in teaching the fundamentals of soccer (any sport really), as well as the life skills that you pick up from athletics for the world beyond!

I have also managed and owned my own business for almost 30 years.....but most of all....love teaching new skills to others.
