The 3 things that I enjoyed the most were hanging out with my teammates because they were all really sweet, funny and we were all similar. Staying at the school seemed boring and I wasn't excited at first but after all it was better than the hotel because I could just walk around without parents or chaperones, I was able to bond with my teammates and meet kids from other countries. Last but not least, the games because I could play soccer and of course it's fun and I enjoy it.

My Favorite NSA Memory

My favorite memory out of everything was getting to know my teammates and staying at the school. I choose this because I feel like staying at the school taught you many things. Such as your parents aren't always going to be there saying "Go make the bed in the morning." Or "come eat breakfast." Which means it teaches you to be independent. Also, when we went to the grocery store I considered everything I bought twice. And not spending my money on useless things, but instead spending on the things that I actually need. Not what I want. And my other favorite memory was getting to know my teammates. I think it was a good experience because my teammates were from all over the USA, not just 1 state. For example, Oliva being from Texas. Or the Swedish and Danish girls. And there was no better way to get to know my teammates than to spend time with them at the school. I mean we couldn't spend all day in bed. We had to do so many things as a group that helped us bond and learn about each other. Those are my favorite memories from the NSA EUROTOUR 2025.

Eurotour memories.

The NSA eurotour was the best vacation of my life, and I've been on a lot. The whole trip was amazing, being in Europe with a bunch of girls your age is so fun. Meeting so many people from other countries was also very cool. I loved my Danish and Swedish teammates so much. We all bonded and got along instantly. Even with my American teammates, when other people saw us they would probably assume we've known each other for years. Most of my favorite memories come from the Gothia cup. That's where we stayed at the school together. At first we were all skeptical but in the end we loved it. I made so many friends and memories there. Dana cup was fun but after staying at the school we all agreed staying at a hotel just wasn't the same. My favorite memories were a bunch of funny stories, at the showers, in the school, the hotel, and at the fields too. On the field we had a lot of fun too because we did so well. On and off the field we had such great chemistry. Eurotour was so fun I wish I could go back and do it all over again.

Monday: Not sleeping that night and laughing with Mae at 3 a.m. Also winning our first game
 Tuesday: We won second game and we finally got ice cream. We discovered Bobi the doll at the school.
 Wednesday: We finally went to the grocery store and stored it all in our lounge
 Thursday: We beat the team that kidnapped Bobi and won the game after.
 Friday: We went to the amusement park and “tea time”.
 Sunday: We rode the ferry and met the Danish girls at the practice we went to after the ferry ride.

 Monday: We toured the bunkers and then played soccer at the beach with the German girls. I drove a car with my dad. The opening ceremony was pouring rain but it was fun walking in the field.
 Tuesday: Our team played our first game and I was captain.
 Wednesday: We won both our games and we played hide and seek in the hotel.
 Thursday: We had only one game at night and before that we went to the fish shack near the harbor.
 Friday: We played Fortuna and I scored and we won. We played in the huge stadium and it was a fun experience.
 Saturday: The bus ride was boring but stopped for ice cream.
 Sunday: I came home

Gothia Cup:

During the Gothia Cup, I enjoyed meeting new people. It was a huge highlight, and all the girls were super welcoming and supportive. I also enjoyed the ability to travel on trams and the amount of walking done in Sweden. It was unique and differed from the types of transportation in America. Another thing I found enjoyable was the Tournament festival we attended, and the fact that most of the attractions were within walking distance. It made everything easy and convenient. Another key highlight was trying Swedish candy. My favorite was the Gelehallon Raspberry Gum Drops. Overall, the Gothia Cup was a great experience!

Dana Cup:

During the Dana Cup, we stayed at a hotel with nice meeting and gaming areas. Dana Cup was a very competitive tournament, just like Gothia Cup. Our team placed 2nd in the Dana Cup Finals, and we got to play in a large stadium where the Dana Cup opening ceremony was held. Over our time in Denmark, we went to visit underground bunkers, played soccer on the beach, walked to the store, and much more. I also found a new favorite food dish there called Skindstegt Laks from the Fiskhuse located down by the beach. Overall, Dana Cup was a great experience

Thank you for an amazing and unforgettable week at Dana Cup.

It has been a great experience.

Camille says she has had the best time in Hjørring. Thanks to the team, coaches and all the families supporting the team.

This week has contributed to her love for the sport.

It has been a pleasure to meet you all and get to know you. We are happy to be part

of the NSA family 

The amazing Dana Cup 2025 experience ends here but it will stay with us as a great experience and memory and I believe it is the start of many more great soccer

experiences for all the girls. 
We hope to see you again.

And just like Carina wrote:

Please do not hesitate to reach out to us when you are in Denmark.

We also live only 10 min away from the airport in Copenhagen and our family is in

Hjørring if you come back to Dana Cup. We will be there next year 

We hope you have a great time in Copenhagen and a safe travel.

Once again thanks to you all and the NSA team for making this week very special to us.

Best regards Camille, Helle and family

Anna Vandkrog's best memories from this year with the NSA:

1. New NSA friendships starting at the Beach - a good Way to meet
2. Playing together with the American girls
3. Playing the semi finals against Fortuna
4. Training session in Hirtshals good and hard
